P 8120

HYDRAULIC PRESS (120 Ton)

Hydraulic press 120 Ton capacity, suitable for compression of conductors and ground wire joints.

Max. compression force: 120 Tons at 700 bar
Quick-connectors
Press weight: 52 Kg
Compression dies weight: 2.5 Kg approx.
Max. hexagonal key: 65 mm
Press dimensions: 500x245x415 mm
Steel case weight: 26 Kg
Steel case dimensions: 470x770x675 mm

Optional middle span joint support

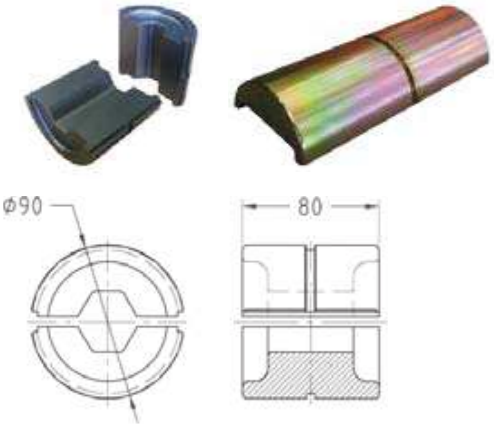

Turnable 360° head on handling base

Suspension working attachement

TOOLS AND DIES			
Press	Joints to be compressed made of:	For hexagonal compression	Tool for straightening joints
P 8120	Steel	S 8120B/...	RD 8120
	Aluminium	S 8120A/...	

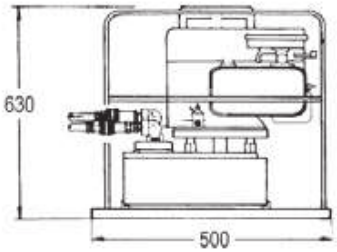

Head dies circular compling, available to accept every dies with 90 mm nominal dia.
Weights, dimensions and drawings may vary without notice

CM 8000

MOTORIZED HYDRAULIC POWER UNIT

Petrol Engine driven hydraulic pump. Complete with quick-connection type power take-off and protection frame.
Suitable for use with press Model **P 8120.**

Technical features:
Four stroke petrol engine of 5.5 HP (Honda)
Flow: 1.51t/min
Max. oil pressure: 700 bar
Oil tank capacity: 10 liters
Dimension: 400x500x630 mm
Weight: 49 Kg
Steel case weight: 26 Kg
Steel case dimensions: 470x770x675 mm

PB 8000

HYDRAULIC HAND PUMP

Two stages hand pump with pressure relief valve, and quick connectors.
Suitable for connection to presses **P 8120** and hydraulic punching machine 754H.

Technical features:
Max. oil pressure: 700 bar
Oil delivery volume per pumping: 1st stage 17.5 cm^3 - 2nd stage: 2.7 cm^3
Oil tank capacity: 2.2 lt
Weight: 8.5 Kg
Case dimensions: 80x27x23 cm

T8120...

HYDRAULIC HOSES SET

Low and high pressure with quick-connectors.

MODEL	LENGTH (M)
T8120.003	3
T8120.006	6
T8120.010	10
T8120.015	15
T8120.030	30

KTC8120

QUICK-CONNECTION TYPE JOINTS

Suitable for jointing hoses of different lengths together.
